### Business outline

## Technology and speed of steel pipe processing are the selling point

MIYAWAKI KOKAN CO., LTD. is a general technology trading company of steel pipe processing which meet all demands of their clients from selling material to simple processing, special processing, and design aid. Their motto is “Cutting and prompt delivery”. They structure 24 hours processing system and have the capability of

deliver day after receiving orders. The origin is an architectural hardware shop founded in 1918. When the company was established in 1961, iron source was valuable, so they took over all surplus irons which come up at the iron pipe manufacturers and was using usable parts. That “make the best of” spirit is the source of earning the capability even now. Their iron pipe processing technology is highly evaluated, and it’s adopted at construction structure in various field such National stadium, TOKYO SKYTREE and OSAKA WHEEL.
